Summary

Security Engineer with hands-on experience in Web, Mobile, Network Penetration Testing and Cloud Security Assessments. Skilled in vulnerability assessment, exploit validation, security research, and professional reporting. Experienced in identifying and mitigating security risks across enterprise environments. Passionate about offensive security, red teaming, and developing open-source security tools while continuously advancing expertise through certifications and research.

Experience

Security Engineer, Ebryx – Lahore, Pakistan June 2025 – Present

- Performed web, mobile, and network security assessments across enterprise applications.
- Identified SQL Injection, IDOR, SSRF, Authentication Bypass, Business Logic flaws, and other vulnerabilities.
- Delivered detailed remediation reports aligned with OWASP Top 10 and industry best practices.

Penetration Tester, SecurityWall – Lahore, Pakistan June 2025 – Present

- Carried out penetration testing tasks and workflows within authorized scope.
- Performed vulnerability assessments using scanning and manual validation techniques.
- Analyzed security weaknesses and documented their technical and business impact.

Cyber and Field Policing Intern, Punjab Police – Lahore, Pakistan Sept 2024 – Nov 2024

- Gained exposure to cybersecurity practices, digital forensics, and investigation techniques.
- Observed specialized departments and learned inter-departmental coordination in policing.
- Developed practical understanding of cybersecurity's role in law enforcement and public safety.

Cyber Security Intern, Senselearner Technologies Pvt. Ltd. – Remote Sept 2023 – Nov 2023

- Gained hands-on exposure to cybersecurity fundamentals and best practices
- Worked on simulated projects covering threat identification and mitigation techniques.
- Researched and presented findings on security improvements and risk reduction strategies.

Skills

- Web Application Penetration Testing
- Mobile Penetration Testing
- Network Penetration Testing
- API Penetration Testing
- Vulnerability Assessment and Penetration Testing
- AWS and Huawei Cloud Computing
- Report Writing

Honors & Awards

- Rising Star Award (Q1 2026) – Ebryx, awarded for outstanding performance and contributions as a Security Engineer.

Projects

Secure File Sharing and Collaboration Platform

- Built a web-based encrypted file sharing system using AES/RSA algorithms
- Implemented secure messaging, file integrity verification, and role-based access controls.
- Tools Used: HTML, CSS, JavaScript, PHP and MySQL.

Tools & Technologies

- Nmap, Burp Suite, Nikto, Metasploit Framework, frida
- Wireshark, John the Ripper, Hashcat, PostMan
- Kali Linux, Windows, Linux Server Environments

Certifications

- Certified Pentester (PT1) – TryHackMe
- Certified Red Team Analyst (CRTA) – CWL
- Junior Penetration Tester (Jr PenTester) – TryHackMe
- Practical Ethical Hacking – TCM Security
- API Penetration Testing – APIsec University
- Huawei Cloud HCCDA Tech Essentials – Huawei Cloud
- Android Forensics – Belkasoft
- Ethical Hacking Essentials – EC-Council
- Foundations of Cybersecurity – Google
- Digital Forensics and Cyber Security – NAVTTC

Education

Lahore Garrison University, BS in Digital Forensics and Cyber Security — Sept 2020 – Jan 2025

- GPA: 3.4/4.0
- **Coursework:** Computer Forensics, Mobile Forensics, Ethical Hacking, Malware Analysis
